

CLEANING AND CARE - DESIGNFLOOR

Remove non-adhering dirt by sweeping or with a vacuum cleaner suitable for hard floors. Only use the wiping care recommended by the flooring manufacturer for ongoing maintenance cleaning. Polish and cleanser with care additives such as wax, oil or similar are not suitable for treating floor surfaces. The floor must not be polished. Wipe the footprints and dirt with a well-wrung, drip-free cloth. Standing wetness should be avoided under all circumstances! Special care should be taken with flower pots, vases and the like on the floor. Use a waterproof base. Attention! Protect the floor from scratches or impressions! Use a sufficiently large dirt trap mat in entrance areas. Furniture feet made of wood, metal or plastic must be provided with felt gliders. Only use office chairs with soft chair castors (DIN 12529) or underlay a commercial grade protective mat.
